

## PORTABLE CABLE STORAGE REELS WITH SLOTTED DIVIDER DISCS

Similar in construction to the Series AV reels, the primary advantage of a Series AVD reel is the addition of a slotted divider disc within the reel spool. This divider disc provides a convenient way for the user to have unobstructed access to both cable connector ends. With this feature, it is easy to pull off any length of cable and still have access to both connectors. There is no need to pull the entire length of cable off the reel before using it.

- Communication, broadcast, and pro-audio applications.
- Rugged steel frame and aluminum spool construction.
- Black, non-reflective matte finish.
- Slotted divider disc provides 2" wide space for storage of short cable.
- Frame clips allow stacking of reels
- Adjustable Cam-lock drag brake locks cable in place.
- Optional heavy-duty, locking caster wheels available.
- Pull handle available for AVD-2 and AVD-3 pn9949.0500.
- AVD-3 only side mounted punchable connector panels are standard.

Parts Drawing — AVD-1 - ISO 222, AVD-2 - ISO 223, AVD-3 - ISO 224
